

The stock is about exhausted. There were sold 879 bbls. 45c, a 45c. on the spot and to arrive. Crude turpentine w

ed. Sales, 500 bbls. at \$3 10. A few small lots were sold with the range of \$3 15 a \$2 40 for No. 2, \$2 50 a \$3 50 for No. 1, \$3 75 a \$4 75 for pale, and \$5 a \$7 for extra do. a

PROVISIONS—Receipts, 1,100 bbls. pork, 117 do. beef. Market for pork was only moderately active, and prices heavy and lower, closing at about \$36 35 for Western, October delivery. There were sold 760 bbls., on the spot for October, at \$36 25 a \$36 60, including small lots.

10⁰⁰ a.m. & 10⁰⁰ a.m. Live hogs were in moderate request at 10⁰⁰ a.m. & 10⁰⁰ a.m. with a bid of 2.15 a head.

There were no sales of prime Western steam at the close below 15 1/2c. The sales were 156 packages at 15c, a 16 1/2c.

and heavy; sales about 70 obis. at \$52 a \$52 50—chiefly

Our former quotations. We heard of no sales. Hides, was in light demand at former prices. A few animal sales were made within the range of \$11 a \$15 for plain m and \$16 a \$18 for extra do. Bacon was dull and better.

don, but values were without alteration. Small sales were 1500 lb.; 1000 lb.; 500 lb. and 250 lb. The following were the prices: 1500 lb., \$1.00; 1000 lb., \$1.00; 500 lb., \$1.00; 250 lb., \$1.00.

Perforated paper, 1000 lb., was \$1.00, and small sales were 1500 lb.; 1000 lb.; 500 lb. and 250 lb. The following were the prices: 1500 lb., \$1.00; 1000 lb., \$1.00; 500 lb., \$1.00; 250 lb., \$1.00.

Perforated paper, 1000 lb., was \$1.00, and small sales were 1500 lb.; 1000 lb.; 500 lb. and 250 lb. The following were the prices: 1500 lb., \$1.00; 1000 lb., \$1.00; 500 lb., \$1.00; 250 lb., \$1.00.

NEW CAROLINA was slow of sale, but steady in value. About 70 barrels were sold at 90, a 9½%. Of Bangosa bags, in lots, were sold at 70, a 7½%.

PEACHES.—The market was dull, the demand being only for small lots; but prices were steady, especially for prime lots. Common to prime quoted at 140, a 15%.

PEARS.—Lusesed was more active, and sales were made of 1,600 bags in Boston at \$1.20, gold, duty paid, and to arrive.

Market was quiet at the following quotations:—(Herd, 3000) 100 lbs. live, \$4.75; 1000 lbs. live, \$12.50; 500 lbs. live, \$6.25; 250 lbs. live, \$3.12; 100 lbs. live, \$1.56; 50 lbs. live, \$0.78; 25 lbs. live, \$0.39; 10 lbs. live, \$0.15; 5 lbs. live, \$0.07; 1 lb. live, \$0.03; 100 lbs. dead, \$3.12; 1000 lbs. dead, \$12.50; 500 lbs. dead, \$6.25; 250 lbs. dead, \$3.12; 100 lbs. dead, \$1.56; 50 lbs. dead, \$0.78; 25 lbs. dead, \$0.39; 10 lbs. dead, \$0.15; 5 lbs. dead, \$0.07; 1 lb. dead, \$0.03.

WINE.—The demand was a little more active and prices were steady for prime lots. Sales 59,630 lbs., within range of 83½c. a 90c., the latter price for choicer city.

WHISKY.—Receipts, 375 bbls. The demand was good about former figures, and sales were made of 700 bbls. 83½c. a 89½c., steady at 83c. a 89½c.

STREET CLEANING.

The following report on street cleaning was yesterday made to the Board of Health and is now published for the first time:—

HEALTH DEPARTMENT, 391 MOTT STREET.
TO THE BOARD OF HEALTH—Chief Engineer's Office.
Secretary:—

GENTLEMEN—I have the honor to report, on the part of the

the conditions of his contract and the regulations of a honorable body. But, disclaiming any intention to criticize coordinate branches of the government, or excusing the actions of the contractor, I am constrained to make statement that the aspect of the streets and the performance of the work of street cleaning could be greatly improved by a rigid execution of the city ordinance. In the first place, in absolutely requiring builders to protect the gutters from encumbrance by covering them prior to

The reports of the Inspectors of Street Cleaning, confined so frequently with those of the Street Contractor, posed up on the greatly increased labor on their veridical

As the Inspector was obliged to report in his list or omission all the parts of streets cleaned after he had inspected a portion of his district. To remedy this, instructions were issued to the Inspectors to ascertain the hours in which the streets were to be swept, to follow the sweepers and report accurately the results of their observations, which will obviate the necessity of continual verification of discrepant reports. In the paved streets ordered cleaning is done by wrapping up and hauling it away, sweeping being impracticable.

The question of dumping the sweepings is one that has demanded considerable attention. Complaint has been made of the deposit of street sweepings for an extension of East 100th street to the river. I very thoroughly investigated the matter, and have no hesitation in announcing the opinion that, instead of its being detrimental to health, it contributes to the general sanitary condition of the locality. The sweepings being covered by earth, which rapidly absorbs the gas emanating by the fermentation of the organic matter in them, can have no deleterious effect on

citizens of the district. While the elevation of the soil at the dead diurnal illumination and consecutive exposure to direct rays of the sun from the East and South of West diminishes the pyrogenetic source in an exact ratio to the extent of surface excluded from the genetic objects with due deference to opposite views, I should respectfully suggest, in lieu of circulating the work on a street, the propriety of encouraging similar enterprise in the extension of the streets between Ninety-second and Ninth streets, across the low grounds to the East river.

draining the intermediate spaces. If the removal of rock from Grifflon, Pot Rock, Way's Reef, &c., could be effected and used in the construction of piers and wharves along the river front, no obstruction being offered to the free ingress and egress of the water, the level would be depressed and the shore level correspondingly raised; changing its paludal character, thereby conducing to the sanitary condition of the district, enhancing the value of the property, rendering it subject to increased taxation to meet the expense incurred and greatly facilitating the drainage of the intermediate spaces.

the commerce of the city. Very respectfully, your obedient servant,
THOMAS COITMAN,
Inspector of Street Cleaning.

THE WATER OF LAKE GILEAD.

The accompanying comparative analysis of the waters of Lake Gilead, which is one of the most important water-works of the State, is published for the information of the public.

voirs purchased by Mr. Tweed for the use of the city, and from which much of the supply of water for the use of this city has been obtained for the last two months, shows it to be remarkably pure. A chemical analysis was made by Professor Chandler, who, during the fall of 1893, made examination of eight samples, with which this comparison is made:—
